

UNIVERSITY OF KANSAS
Department of Physics and Astronomy
Astrophysics I (ASTR 691) — Prof. Crossfield — Fall 2022

Problem Set 5

Due: Friday, October 14, 2022, by the start of class (by 1100).
This problem set is worth **20 points**.

1. What new topic in A691 feels like it makes the most sense to you so far?
2. What has been the most confusing topic in A691 so far?
3. How does the A691 workload compare to that of your other (comparable-level) courses?
4. How regularly do you read the scheduled reading assignments before each lecture?
5. How often have you come to office hours? If you never have: why not?
6. What do you enjoy about A691?
7. What do you feel could be improved in A691 for the 2nd half of the semester?
